

The background of the slide is a vibrant, artistic photograph of a coastal scene. It features a large, weathered wooden log in the center, surrounded by various types of seaweed in shades of green and brown. The water is a deep blue, and the sky is a lighter blue with soft white clouds. The overall composition is dynamic and naturalistic.

iff

OCEANOL

IPC: 190782

FEATURES

- High-impact ingredient effective in small doses.
- Brings a fresh, clean note to the top.
- In water notes, it reinforces the salty, marine facet.
- Adds complexity to leather or dark wood fragrances.

OCEANOL

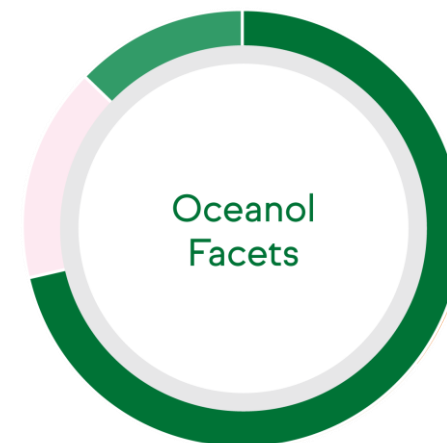

REGULATORY STATUS

US EPA – cleared

EU REACH - IFF registered, up to 1 ton/year

Japan – IFF registered, up to 1 ton/year

China – cleared

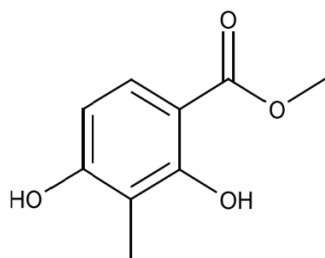

OLFACTORY DESCRIPTION

Fresh, bright ozonic marine top note with a full-bodied earthy, mossy and woody dry down.

■ Mossy

■ Powdery

■ Seaweed

BENEFITS

Oceanol has a good performance in fine fragrance applications. It offers great long-lastingness and maintains a linear scent profile.

Good performance and stability in Fabric Care. Especially in fabric softeners, Oceanol has good performance in all stages, pop, bloom, damp and dry.

Clean regulatory profile with no environmental H codes, enabling high impact without triggering toxicity concerns.

A high-impact ingredient that supports concentrated formulations without compromising performance.

Great combinations with Veramoss, gourmand notes, aldehydes, muguet and woody notes.

PERFUMERS' QUOTES

“Oceanol is a powerful ingredient with mossy undertones, making it perfect for enhancing the salty trend but also to push freshness.”

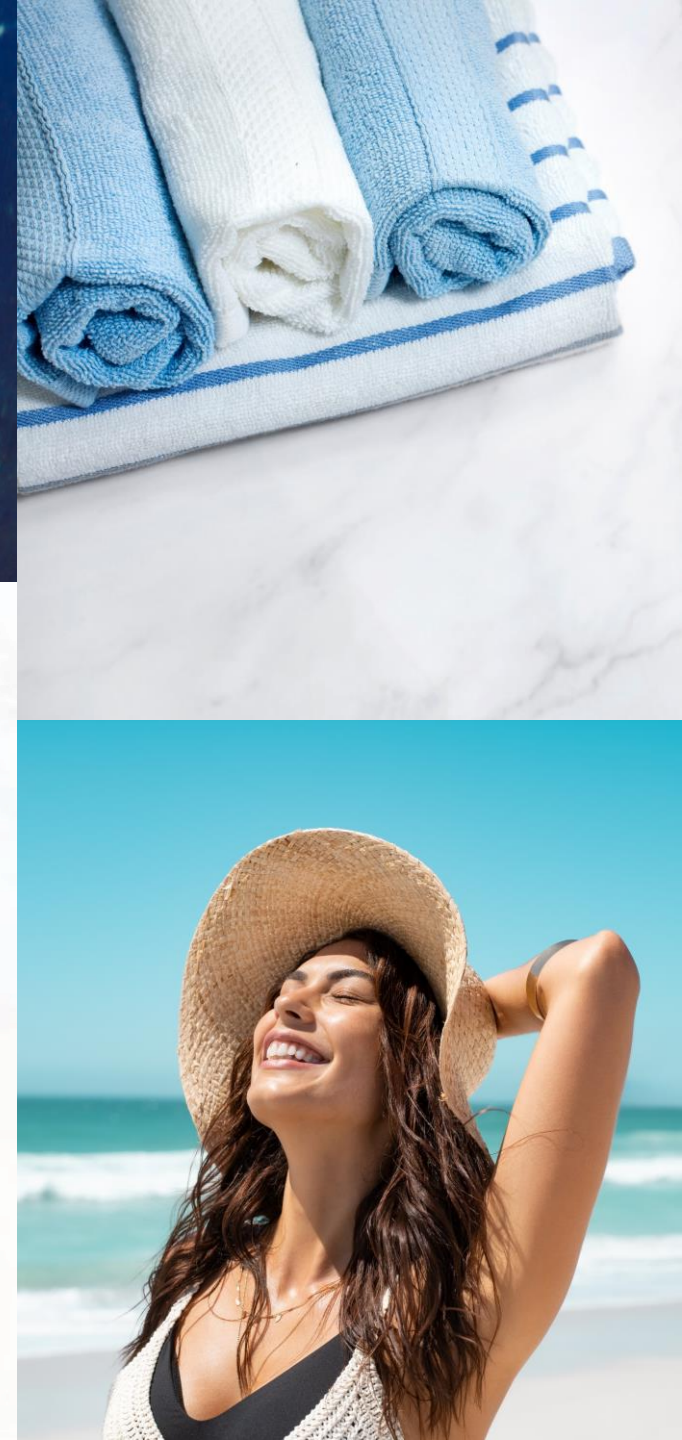

Elise Pajot, Perfumer

“Oceanol performs incredibly well – you smell the impact at the top of your fragrance, but it’s also very long lasting.”

Ricardo Moya, Senior Perfumer Catapano Award

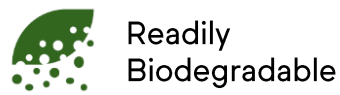

“The freshness Oceanol brings really differentiates it from other moss materials.”

Laura Gibbs, Senior Perfumer
