INNOVERSE – VALIDATION AND DO TASK

October 14, 2024

We are on a journey.....

iff

To Re-Platform IFFman

INNOVERSE - IFFMAN RE-PLATFORM(NEW VERSION)

OBJECTIVE (AS IT IMPACTS DESIGNERS AND FLAVORIST)

- Transition from IFFMan to Innoverse
- Innoverse single place to work by end of Q4/2024 (Designer) excluding Innodesign
- Innoverse single place to work by end of Q1/2025 (Flavorist)
- **Turning off IFFMan functionality along the way**
 - Some functionality can only exist in one system and access will be disabled immediately; other functionality will be removed 30 days after its release.
- Enhancing Innoverse in Q2 and ongoing

KEY PROJECTS TARGET DELIVERABLES

Q3-2024

- Costing
- Internal Sample Task
- Product data screen
- Creative MNC

Q4-2024

- BOM Rights
- Flag Explosion
- BOM and BOM Lock History
- Sales ID translation to IPC
- Flashpoint Prediction*
- Sweet FMP Prediction PDS*
- Re-Launch FS Training
- Do Tasks
- Validation (submission process)
- FB Implementation (MVP1)*
- FS User Feedback Enhancements
- Where Used
- BOM Compare / Historical Cost
- Restricted Use / Inherited RU
- Audit of Assistance – BOM-O-Meter
- PDS Enhancements
- IPC Selection Micro App
- Creative Review Micro App
- Features and Feedback Enhancements*
- Innoverse Chatbot*
- Masterfiles Maintenance

Q1-2025

- Save as BOM (Corporate IPC)
- Load mechanism of formulas for new sites to Innoverse (Existing M&A)
- Evaluations

Q2-2025

- Innodesign (MVP1)
- Improve Innoverse tools (Ongoing)

AGENDA

What's Changing	Validation and Do Task process
Best Practices	Recording Hours and Catalyst Changes
FAQs	Questions received during UATs from both sessions
Enhancements	Review Fixes and Pending Fixes from UAT
Resources	Features and Feedback Links
Demo	Walk through of Validation and Do Task Process
Questions	Questions and answers

WHAT'S CHANGING

WHAT'S CHANGING

Moving from IFFMan/Catalyst to Innoverse

Validations

Do Tasks

WHAT DO WE MEAN BY VALIDATION

Validation is the terminology adopted from SFDC. The validation step checks if the product allowed to be used for your customer.

Validation process is moving from current IFFMAN & Catalyst applications to Innoverse (Taste Editor and Formula Sommelier).*

This process is to “submit” or “green light” your IPC against your project and generate your Sales Code, formerly known as Submission

WHAT DO WE MEAN BY DO TASK

Do task is where we record or log our hours spent on a creative task in IFFman or Catalyst and close our creative task.

Do Task process is moving from current IFFMAN & Catalyst to Innoverse (Taste Editor and Formula Sommelier).*

*This process is to enter the number of hours spent on a project and to close a task as completed in Innoverse**.*

*See slide on Catalyst

**See slide on best practices of when/where to enter hours

BEST PRACTICES

HOW DO I ADD HOURS TO THE TASK

While a task is in progress, hours can be entered on a daily or weekly basis. This will accumulate the hours worked on the task and provide an accurate record of the time spent. This feature can be utilized by the team to keep track of their hours worked.

Flavorist
23 hours

Designer
8 hours

Designer
10 hours

TEAM MEMBERS

Gemma Horst
TASK LEAD
Done • 22w 6h logged

Florian Plooy
Done • 6h logged

Dmitry Danny Baron
Done • No Hours logged

Ingrid Gellner
Done • No Hours logged

TSR
Manager
5 hours

ALL STATUSES AND HOURS TO
SALESFORCE WHEN
TASK LEAD SET TO TASK TO
DONE

TSR Team Member (6+)			
User	TSR Role	TSR Products Involved	Hours spent
Florian Plooy	Design	All products	6,0
Ingrid Gellner	Design	All products	0,0
Dmitry Danny Baron	Design	All products	0,0
Gemma van der Horst	Creation	All products	886,0

This is a reminder for all Innoverse users:

It is crucial that you log your hours in Innoverse. In the event that you close your task in Salesforce prior to the task lead, please be aware that the total hours of Innoverse will override the manually entered hours in Salesforce. This means that if you do not log your hours in Innoverse but enter them in Salesforce only, the result will be 0 hours on the TSR when the task lead sets the overall task to done. **Please ensure that you follow this protocol to avoid any discrepancies in your logged hours**

* Change request is pending with Salesforce to send the task status and hours after each close, not just after the task lead close

CHANGES TO IFFMAN / CATALYST

What is NOT Changing?

Catalyst

Insert
Recommendations

Create of link Prototypes

Create Sales ID's during
the Print Proto

Print Application Data
sheets

What will move to Innoverse ?

Catalyst

IFFMAN

My To do list

Submissions

Do Task
(recording of Hrs)

Evaluation of Not suitable and average can also be
used to submit

Innoverse TE / FS

My tasks (My To do list)

Do Task
(recording of Hrs daily or weekly
instead of at end)

Validations
(Submission/Green Light)

Run new Creative review during
validation

Evaluation of Not suitable and
average can no longer be used to
validate products

The screenshot displays the IFF Catalyst web application. At the top, there's a navigation bar with the IFF logo and 'CATALYST' text. Below it, a breadcrumb trail shows 'Task > Task Details'. The main heading is 'Task 20247370 - mycoprotein maskers, Enduse: 20516 PLANT BASED YOGURT'. Below this, it says 'BOERMARKET NETHERLANDS EntityType: IFF Customer Branding: IFF'. There are tabs for 'Prototypes', 'Details', 'Add Prototypes', 'Attachments', and 'Submissions', with 'Submissions' being the active tab. A table shows submission details for '17000024 17000024'. The table has columns for 'IPC Sales Number', 'Suggested Use Level', 'Target CU', and 'Submission CU'. The row shows '17000024 17000024', '20 % in Customer Preferred Product VINCENKORSTIG', '2024-10-10', and '1 988 EUR'. To the right of the table, there's a 'Submit' button with a dropdown menu containing options: 'Submit', 'Edit Summary', 'Reject', 'Active / Inactive', 'Keywords/Taste', and 'Notes'. A red 'X' icon is visible over the 'Submit' button. At the bottom, there's a copyright notice: 'Copyright © 2016 IFF. All rights reserved.'

FAQS

FAQS

Saved in Features and Feedback Icon – we will continue to add to this document as questions surface during the training sessions

Formula Sommelier

Taste Editor

Topic	Question	Answer
Task	Why do I have to close my task twice	There is no need to close the task twice, but it is possible although it is crucial that you log your hours in Innoverse. In the event that you close your task in Salesforce prior to the task lead, please be aware that the total hours of Innoverse will override the manually entered hours in Salesforce. This means that if you do not log your hours in Innoverse but enter them in Salesforce only, the result will be 0 hours on the TSR when the task lead sets the overall task to done. Please ensure that you follow this protocol to avoid any discrepancies in your logged hours. An enhancement is pending to send the hours over on the close of each teammember
Evaluations	Can I add more ratings in the usage rating?	Single Evaluator will default to Good. Unknown option will be available for Standard Sample Requests only. Validated products will no longer have the option of Average and Not suitable. Group Evaluator will have additional options similar to IFFman today
Generate Sales Number	What is Customer Material Code?	The IFF code is our generated code (sold to/IPC relationship) the customer material code is the Code the customer gives us, the code they assign in their system.
Sales Name	Can we edit Sales Name after validation?	No, once validated we cannot edit Sales name. Sales would need to update.
Usage Level Entry	What is the maximum ppm value I can enter?	PPM Maximum is 1000pm,

ENHANCEMENTS

ENHANCEMENTS

As of 10/14/2024

Fixed Items

(Available in QAS – to be move to Production)

*“Unknown” to be included in dropdown
(Unknown is to be used for **Sample Selection Only**)*

All Categories to be displayed in the evaluation box

Default to Good during creation of evaluation

Dark Mode improvement to radio button color

Restrict 40 Character Limit on Sales Name (due to dependancies in other systems)

Pending Items (Post Go-Live)

Hours and task status directly to Salesforce for each person instead after task lead close

End-use search by Number in create evaluation
